

Gear List for Volunteer Trip to Cinque Terre, Italy

The key to staying comfortable while on an active trip is layering. To get maximum comfort with minimum weight, you need versatile layers that mix and match to create the right amount of insulation, ventilation and weather protection. This gear list has been created to help you in choosing your equipment for the trip. **Pack lightly** and bring only what is necessary since we will be traveling and need to move baggage several times. You will need to be able to lift your own bags on and off a train (3-5 steps). You must be able to carry/roll your own luggage along cobblestone streets to hotels.
